Julie Eihausen is the chair

Pat Fulmer is the vice chair

Ginny will the liaison with BLT

Tyffanee will do the Hawk Highlights

CRT

Shawn has the reports, but they are not organized yet so we will look at them in more detail later. We need to find out the percentage that we need for proficiency. We'll go over that data at the next meeting. We looked at just the overview results comparing by school and state.

Bylaws

We went over the 06-07 bylaws. Shawn made copies of the 08-09 School Improvement plan.

In discussion of committees and responsibilities, noted that SCC needs to see the updated Emergency Preparation Plan.

Julie also mentioned dates and requirements for voting. Julie and Michelle Powell will be in charge of calling for candidates, interviewing and making ballots – in a timely fashion.

School Improvement Plan

What do we want to look like in 5 years and how can we get there? We plan based on how our children do on the CRT scores. We looked at the 08-09 school improvement schedule.

Did the reading specialists use the money allocated in SIP to organize the materials for Power Hour? When do we report out about progress on power hour?

Ask Susan Brewer about making a step-by-step directions for parents on how to use Power School, maybe to be given out at parent-teacher conferences.

BLT Reminders

There is money for grade levels to use ½ day to score writing prompts.

Are all the grade levels using them?

What is the district reading program? Are there any new materials?

Have grade levels chosen core areas to have Susan or JJ help develop technology to support.

Is there someone who would look at the Ogden, Granite maps and curriculum maps and see how we might use them? Ask Kara about the interconnect. I think she mentioned it at a staff meeting.

At the next meeting, we need final copy of the landtrust plan, etc.
